Aklan, Western Visayas, Philippines

- (UAT) User Acceptance Testing of MEDtrix (HIS) Hospital Information System
- UAT) User Acceptance Testing of MEDtrix (RIS) Radiology Information System
- UAT) User Acceptance Testing of MEDtrix (MMS) Materials Management System.

PROJECTS

AlertMate - A PERSONAL ALERT SYSTEMAPPLICATION FOR THE ELDERLY

- Developed AlertMate, a mobile app that helps elderly users manage medication, appointments, and emergencies.
- Built with Flutter and Firebase, using Firestore for real-time data storage.
- Followed Extreme Programming (XP) for fast, user-focused development.

Aklan State University - Equipment and Item Borrowing Record

- Developed a simple web-based logbook system for tracking borrowed items at Aklan State University using HTML and CSS for the front-end interface, and PHP for server-side logic and data handling.
- Allows users to record item borrowing and return details efficiently, supporting organized inventory tracking.
